# INTRODUCTION

GURUKUL, centrally located at Bharatpur (close to Central Bus Terminal), was established in 2054 as the first science college in Chitwan with a mission of developing it as a platform of the latest technological erudition, discipline and dignity. Patronized and run by highly qualified academicians and reputed social workers, GURUKUL has now become a 'Brand' in Science and Management programmes. The dedicated team of Gurukul is always committed to produce competent, creative and disciplined students who are capable of acquiring frontal position in national and international universities.

**KESHBIR SHRESTHA**  
Chairman  
Board of Directors

## Why GURUKUL?

It's my immense pleasure to welcome SEE graduates to Gurukul. The best faculty, modern and spacious classrooms, psycho – social counseling, co-curricular activities are essential to groom up the young learners and we address almost all these requirements. We provide a wide range of choice to the students: Science (day shift), Management, Hotel Management (both shifts) and Humanities (Morning Shift).

I am glad to affirm that Gurukul has been providing quality education at reasonable cost. In its long academic journey, Gurukul has produced thousands of skilled and proficient manpower. The responses of our outgoing students and their guardians have been quite positive and encouraging. We offer a sound infrastructure, transportation facility, extra-curricular and co-curricular activities to facilitate teaching learning environment.

We are always grateful to all guardians and well-wishers for the continual trust and support.

**TIKARAM CHAPAGAIN**  
Principal

# Message from PRINCIPAL

We are proud to announce that Gurukul, one of the leading academic institutions of Chitwan, is reforming itself with a new dimension. Currently, we have set a new model of learning with a motto of research, innovation and transformation with an added strength of new energetic team along with completion of 25 years of academic excellence.

Gurukul believes in providing more practical/project based learning like **pre-medical** and **pre-engineering** classes, **accounting package classes**, **interactive classes** with different distinguished personalities from corporate world and entrepreneurs, field trips and excursions.

We are devoted to introduce ourselves as a living institution that discovers, nurtures and flourishes the innate potentiality of learners. Here, students are not taught traditionally but they are prepared for their future with strong dedication and commitment.

Certainly, you will feel the difference, once you set your feet here. Gurukul is ever pleased to welcome you all.

## MISSION

To prepare proficient educators who demonstrate in-depth content knowledge, cultural competence and sensitivity.

## VISION

Gurukul envisions to be an apex academic institution nationally by providing diverse learning opportunities.

## GUARDIAN'S VOICE

Gurukul is one of the finest Colleges in Chitwan so far I've known. It has a good education, communication and other facilities like transportation, smart attendance, domiciliary visit, etc. Here the teachers are very loving, friendly, supporting to kids. I'm very happy and satisfied seeing my kid receiving such knowledge and education from this college.

## STUDENT'S VOICE

**Subin Adhikari** (XI, Science)

I completed my SEE from Valmiki Shiksha Sadan with a **GPA of 4.0** and am currently studying in Gurukul College. I really appreciate the efforts of our teachers in making the school environment enjoyable and focused on career development. But class 11 and 12 isn't all about studying; it's more about meeting new people and socializing. Don't dream big at the beginning, just keep studying regularly.

**Raj Lamichhane** (XI, Science)

Namaste, and my warm regards to everyone. I graduated SEE from Siddhi Vinayak SS securing **4.0 GPA**. I was in dilemma choosing college for my further education. Without much ado I joined Gurukul College. I am very much happy for choosing this college which is renowned for its quality education. Friendly teachers, their team work and highest placement ratio are the major features of this college. So, to ensure bright future I would like to suggest all aspirants to get enrolled in this college.

**Roshan Sharma** (XI, Science)

I passed my SEE from Prembasti SS securing **4.0 GPA**. After the result, I overcame my confusion and chose Gurukul and I am doing absolutely great over here. I have a dream to be a Doctor and I'm sure I will make it true with the support and help of this college. For sure Gurukul gives you wings to fly. All it takes is faith and trust. I have always taken Gurukul as my family and family means nobody gets left behind. I personally want to invite you all to be a part of this family and experience yourselves.

**Sudipa Gurung** (XI, Mgmt.)

Before, I was literally unknown about Gurukul. However, after I joined it following the recommendation of the elders from my locality, I came to know many positive aspects of this college. Our college is outstanding regarding career and personality development. I really like its precinct environment as well as friendly teachers who teach us very effectively.

**Muna Kandel** (XI, Mgmt.)

I passed SEE from Sirjana School with **GPA 4.0**. I am now a part of Gurukul College, one of the most facilitated colleges of Chitwan. Its peaceful, clean and positive atmosphere inspires us to study. Helpful, friendly and cooperative faculties are always ready to solve our problems. Weekly meeting with entrepreneurs and other resource persons boosts our potentiality in various fields. It is the best college for the beginners who want to change their dream into reality.

**Safal Sapkota** (XI, Science)

I passed SEE from Sunlight EBS, Parbatipur, with **GPA 4.0**. I was attracted by Gurukul's astonishing result in every field. There are highly equipped laboratories. Highly qualified teachers who make sure that every student in class gets what they need. They focus on understanding the concepts, discourage rote learning. It has comfortable transportation, hygienic canteen, and a big play ground sufficient for every kind of sports.

**Samir Sharma Poudel** (XI, Science)

Hi everyone, I am currently pursuing my +2 Science from Gurukul College. I am fortunate enough to be a part of this institution with such an excellent and friendlier environment, qualified and experienced teachers, and extraordinary teaching and learning facilities in every way. This institution is helping me a lot to boost my learning ability & enhance my knowledge. Initially, I was in a dilemma to choosing an academic institution to continue my +2 studies after SEE securing a **GPA of 4.0**, but now I feel that I have taken a good decision in my life by choosing this wonderful academic institution.

**Prince Poudel** (XI, Science)

Being a Gurukulian, I feel myself very lucky as it provides world-class education facility. The thing which attracted me to it is the academic excellence achieved by the passed-out students. Apart from the academic quality, it also provides us with extra-curricular and recreational activities time to time. Instead of monotonous learning, it is directed towards the overall development of all the students. I can proudly say that Gurukul is the best platform for your career development.

**Rohit Subedi** (XI, Science)  
**4.0 GPA, SEE**

Honestly, I am truly grateful towards Gurukul for providing me with such an awesome environment to study. It's true that I had some problems at first, but reducing problems as friends rather than as student and teacher is the essence of Gurukul. I am glad to recommend the new comers to get enrolled here quite readily and confidently.
